INDEPENDENT AUDITORS' REPORT ON FINANCIAL STATEMENTS AND SUPPLEMENTARY SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

To the Board of Trustees
The Academy of Natural Sciences of Philadelphia
Philadelphia, Pennsylvania

We have audited the accompanying statements of financial position of The Academy of Natural Sciences of Philadelphia (a Pennsylvania not-for-profit corporation) as of December 31, 2011 and 2010, and the related statements of activities and cash flows for the years then ended. These financial statements are the responsibility of The Academy of Natural Sciences of Philadelphia's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Academy of Natural Sciences of Philadelphia as of December 31, 2011 and 2010, and the changes in its net assets and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 4, 2012, on our consideration of The Academy of Natural Sciences of Philadelphia's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Zelenkofske Axelrod LLC

To the Board of Trustees The Academy of Natural Sciences of Philadelphia Page 2

Our audit was conducted for the purpose of forming an opinion on the financial statements of The Academy of Natural Sciences of Philadelphia as a whole. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTE 1: NATURE OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Academy of Natural Sciences of Philadelphia (the "Academy") is a nonprofit organization that has been granted tax-exempt status under Section 501(c)(3) of the Internal Revenue Code. The Academy was founded in 1812. On September 30, 2011 the Academy became a non-profit subsidiary of Drexel University (see notes 19 and 21).

A summary of the Academy's significant accounting policies consistently applied in the preparation of the accompanying financial statements is as follows:

A) Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared on the accrual basis of accounting. The Academy reports information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets and permanently restricted net assets. In addition, the Academy presents a statement of cash flows.

Per an affiliation agreement dated September 30, 2011, the Academy has merged with Drexel University. A requirement of the affiliation is that the Academy have a valuation done as of September 30, 2011. See notes 19 and 21 for this valuation.

B) Allowance for Doubtful Accounts

The Academy provides an allowance for doubtful accounts equal to the estimated losses that will be incurred in the collection of all receivables. The estimated losses are based on a review of the current status of the existing receivables.

C) Accounting for Certain Investments

Investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values in the statements of financial position. Fair values are determined by using quoted market prices where available. No investment or group of investments represents a significant concentration of market risk. Unrealized gains and losses are included in the change in net assets in the accompanying statement of activities. Investments are in a common pool and have been presented in the financial statements at fair value.

D) Life Income Gifts

The Academy, which serves as Trustee of these investments, is the recipient of Life Income gifts under gift annuity and irrevocable split-interest agreements. Assets received are recorded at fair value at the date of the gift and revenue is recognized for the Academy's portion of the remainder interest.

NOTE 1: NATURE OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E) Property and Equipment

Buildings, building improvements, automobiles and trucks, and equipment are carried at cost. Equipment under capital lease is amortized over the lesser of the term of the lease or the estimated useful life of the asset. Depreciation and amortization are computed using the straight-line method over the estimated useful lives ranging from three to fifty years. Repairs and maintenance costs are charged to expense as incurred. Values of the existing scientific and library collections are not readily determinable, and therefore, are not recorded on the financial statements. ANS capitalizes all assets in excess of \$2,500 with useful lives over three years.

F) Beneficial Interest in Perpetual Trusts

Under the terms of various perpetual trusts held and administered by third parties, the Academy is the beneficiary of income earned on those trusts' assets in perpetuity. The Academy recognized the fair value of those trusts' assets as permanently restricted contribution revenue and an asset (beneficial interest in perpetual trusts) when it is notified of the trusts' existence. Changes in the fair value of the trusts' assets are recognized in the period the change occurs as permanently restricted unrealized gains or (losses). The change in value recognized in 2011 and 2010 was (\$108,886) and \$439,533, respectively. The Academy records income, in the period it is received from the trusts, as unrestricted or temporarily restricted depending on the existence and/or nature of any donor restrictions. Interest income received was as follows:

	<u>2011</u>	<u>2010</u>
Unrestricted	\$ 189,598	\$ 162,604
Temporarily Restricted	84,450	75,000
	\$ 274,048	\$ 237,604

G) Contributions and Revenue Recognition

Contributions received, including unconditional promises to give, are recognized as revenues in the period received at their fair values. Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor restrictions. In addition, donor-restricted contributions, whose restrictions are met in the same reporting period are included as net assets released from restrictions. Contributions or unconditional promises to give which are exchange transactions are accounted for under contract accounting in accordance with accounting principles generally accepted in the United States of America. The majority of contracts and other exchange transactions consist of fee for service activities. Revenue is recognized on these contracts by the percentage-of-completion method.

NOTE 1: NATURE OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G) Functional Allocation of Services

The costs of providing the various programs and other activities of the Academy have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited based on management estimates.

H) Fund-raising

Fund-raising costs were \$917,602 and \$822,258 in 2011 and 2010, respectively.

I) Cash and Cash Equivalents

ANS considers all unrestricted highly liquid debt instruments purchased with an initial maturity of three months or less to be cash equivalents.

J) <u>Use of Estimates</u>

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

K) Classification of Net Assets

Resources in the financial statements are classified for accounting and reporting purposes into classes of net assets according to the existence of restrictions which donors place on grants and other gifts as well as designations made by the Board of Trustees. All assets, liabilities, and activities are accounted for in the following net asset classifications:

Unrestricted

Unrestricted net assets are used to account for funds which have not been restricted by donors, and over which the Board has discretionary control.

Temporarily Restricted

Temporarily Restricted net assets are subject to donor-imposed stipulations that may be fulfilled by actions of the Academy to meet the stipulations or become unrestricted at the date specified by the donor.

Permanently Restricted

Permanently Restricted net assets are subject to donor-imposed stipulations that they be retained and invested permanently by the Academy. The donors require the Academy to use net assets for specified or unspecified purposes.

NOTE 2:

CASH CONCENTRATION

The Federal Deposit Insurance Corporation ("FDIC") beginning December 31, 2010 and continuing through December 31, 2012 provides for unlimited coverage to noninterest-bearing checking accounts where depositors are permitted to make an unlimited number of transfers and withdrawals, and the bank does not retain the right to require advance notice of a withdrawal. The Academy's main checking account meets these criteria. Accounts not meeting the criteria are subject to the \$250,000 limit set by the FDIC per banking institution. A summary of the insured and uninsured cash balance is as follows:

		<u>2011</u>	<u>2010</u>
Total Cash in Bank	\$	706,271	\$ 602,980
Portion Insured by FDIC	_	(250,000)	 (250,000)
Uninsured Cash Balance	\$	456,271	\$ 352,980

NOTE 3:

GRANTS RECEIVABLE

Grants receivable represents invoices billed to grantor for services provided under the terms of the grant agreements which have not yet been collected as of December 31, 2011 and 2010, respectively.

NOTE 4:

CONDITIONAL AND UNCONDITIONAL PROMISES TO GIVE

Conditional

Conditional promises to give are recognized when the conditions on which they depend are substantially met, that is, when the conditional promise becomes unconditional. The Academy had the following conditional promises to give which were not recognized:

	<u>2011</u>	<u>2010</u>
Endowment	<u>\$</u>	\$ 141,428
Total Promises to Give	<u>\$</u>	<u>\$ 141,428</u>

Unconditional

Unconditional promises to give, that are expected to be collected within one year, are recorded at net realizable value. Unconditional promises to give that are expected to be collected in future years are recorded at the present value of their estimated future cash flows.

NOTE 4:

CONDITIONAL AND UNCONDITIONAL PROMISES TO GIVE (CONTINUED)

Unconditional promises to give include the following:

	<u>2011</u>	<u>2010</u>
Unconditional Promises to Give Due in:		
Less than One Year	\$ 170,823	\$ 144,801
One Year to Five Years	 86,544	 209,285
•	257,367	354,086
Less: Discount to Present Value	(3,260)	 (8,038)
Net Unconditional Promises to Give	\$ 254,107	\$ 346,048

Unconditional promises to give are recorded in the following net asset classification:

		<u>2011</u>	<u>2010</u>
Temporarily Restricted	\$	253,107	\$ 181,616
Permanently Restricted		1,000	 164,432
Total	<u>\$</u>	254,107	\$ 346,048

Unconditional promises to give with a maturity greater than one year that were received were discounted at 1.60% and 1.80% in 2011 and 2010. The fair value of the unconditional promises to give approximates the carrying value as determined by discounting the expected future cash flows by a risk-adjusted rate of return for similar terms to the years in which the promises are received.

NOTE 5:

LIFE INCOME GIFTS

The Academy is the recipient of contributions under Life Income agreements. Under the terms of the instruments of transfer, the interest income attributable to the property transferred (cash or securities) is paid to the income beneficiaries over the life of the contributor and/or the lives of the beneficiaries, as specified by the contributors. The agreements provide for the payment of distributions to the grantor or other designated beneficiaries over the agreements' term (usually the designated beneficiary's lifetime). At the end of the split-income agreement(s) term(s), the Trustee will sever from the plan an amount equal to the value of the remainderman interest in the transferred property and transfer it to the Academy for its general use and purposes or for donor-imposed purposes.

The portion of the trust attributable to the future interest of the Academy is recorded in the statement of activities as either unrestricted or temporarily restricted contributions and bequests, as identified in the agreement, in the period the agreement is established. The Academy has recorded the assets of the plans at fair value at the date of the gifts (see Note 6) in the statement of financial position. On an annual basis, the Academy revalues the liability to make distributions to the designated beneficiaries based on actuarial assumptions. The present value of the estimated future payments is calculated using a discount rate of 1.60% and 1.80% in 2011 and 2010 and applicable mortality tables.

The liability for distributions included in other liabilities in the statements of financial position at December 31, 2011 and 2010, is \$284,518 and \$306,789 respectively.

NOTE 6:

INVESTMENTS

Investments in marketable securities of Capital Projects and the Endowment are presented in the financial statements at fair value at December 31, 2011 and 2010 and consisted of the following:

NOTE 6: INVESTMENTS (CONTINUED)

The Academy's Finance Committee approved an investment strategy that includes an allocation to hedge funds and private equities.

Derivative financial instruments consist of investments in eight alternative investment funds. The funds consist of investments in Morgan Stanley, Addison Clark, Owl Creek, Fir Tree Inc., Forester, Mason Capital and two funds from Goldman Sachs. The Morgan Stanley International Fund of Hedge Funds LP (the "Partnership") has a carrying value in 2011 and 2010, which approximates fair value, of \$697,100 and \$1,453,672. The fair value was derived from the audited financial statements of the Morgan Stanley International Fund of Hedge Funds LP. The fair value of the Partnership is based on the net asset value of the Fund. The Partnership values its investments in Investment Funds, which ordinarily will be the amount equal to the pro rata interest in the net assets of such funds, as supplied by the investment manager. The Investment Funds value their underlying investments in accordance with policies established by each investment fund, as described in each of their financial statements and offering memoranda. Where no value is readily available from the Investment Fund or the value is not deemed sufficient, Morgan Stanley will determine the fair value in accordance with procedures adopted by their Board. Derivatives are an integral part of many of the Partnership's investment strategies.

The Partnership's investment objective is to seek capital appreciation principally by investing in Investment funds managed by third-party investment managers who employ a variety of alternative investment strategies. Investments of the Partnership are selected from a wide range of Investment Funds in order to create a broad-based portfolio of such Investment Funds while seeking to invest in compelling investment strategies and managers.

Limited Partnership interests are generally issued at the beginning of each calendar quarter, unless otherwise determined at the discretion of the General Partner. Additional subscriptions for interest by eligible investors are accepted into the Partnership at net asset value. The Partnership may from time to time offer to repurchase Interests at net asset value.

Addison Clark Fund L.P. (the Partnership) is a Delaware limited partnership. The investment has an aggregate cost and fair value at December 31, 2011, of \$926,098 and \$1,010,608, respectively. The Partnership's general partner is Addison Clark Capital, LLC, a Delaware Limited Liability Company, (General Partner), and also serves as the management company which is responsible for managing the Partnership's portfolio. The Partnership's investment objective is to provide its investors with superior returns over the long term while minimizing the probability of permanent impairment of capital. The partnership seeks to achieve superior returns from capital appreciation primarily through investing in publicly traded securities in the U.S. equity market, with a focus on undervalued companies. The partnership also selectively uses short positions which can provide opportunities to reduce capital risk and increase total return. The Partnership's specific objectives are to; (i) determine attractive long investments by conducting detailed analysis of company financial statements, focusing on free cash flow, growing, moderately predictable earnings, and identifying management teams that behave like owners; (ii) identify short investments with material fundamental accounting issues, overseen by management teams that are overly promotional and that misallocate capital and with stock valuations well in excess of intrinsic business value; and (iii) generate after-tax performance through multi-year investment horizons and lower turnover on long positions.

NOTE 6: INVESTMENTS (CONTINUED)

Partnership assets may, at any given time, include securities and other financial instruments or obligations which are thinly traded or for which no market exists or which are restricted as to their transferability under applicable securities laws. The sale of any such investments may be possible only at substantial discounts. Such investments may be extremely difficult to value with any degree of certainty. Investments in privately placed securities of private companies will generally be valued at the lower cost of cost or fair market value and typically would only be marked below cost if there has been a significant change in the investment. The General Partner, in its sole discretion, may alternatively determine to value such investments at fair market value (without regard to whether it is lower than cost). With respect to privately placed securities of publicly traded companies, the Partnership anticipates that it will value such securities based on the price of the publicly traded shares less an appropriate discount to reflect their illiquidity. These investments may be extremely difficult to accurately value.

Fir Tree Capital Opportunities Fund, Ltd. (the Fund), is a Cayman Islands exempt company. The investment has an aggregate cost and fair value at December 31, 2011 of \$2,372,344 and \$2,456,005, respectively. The investment has an aggregate cost and fair value at December 31, 2010 of \$2,000,000 and \$2,348,542, respectively. Fir Tree Inc. serves as the Fund's investment manager. The capital of the Fund consists of 5,000,000 shares, par value \$0.01 per share, divided into 100 management shares and 4,999,900 participating shares, which shall be further divided into separate classes and series as needed, including classes of non-marketable shares. Net asset valuations of the Fund, each series of shares will be calculated by the investment manager as of the close of business on the last day of each month, or such other days as may from time to time be determined by the Fund using U.S. generally accepted accounting principles as a basis. To the extent feasible, liabilities are accrued as of each valuation date.

The Fund's objective is to achieve long-term capital appreciation primarily through investments that have a credit and/or capital structure arbitrage component. The investment manager seeks to achieve this objective primarily through generating profits from changes in the price of its security investments and from interest payments on its debt security investments. The Fund will generally employ a value approach to investing, focusing on net assets values, the sustainability of cash flows, private market values and liquidation values. The investment manager intends to take long and short positions and where appropriate may establish capital structure arbitrage positions.

The Fund's investment position will primarily consist of corporate bonds, bank debt, trade obligations, and equity securities. The investment manager may employ techniques to hedge investment risk, including without limitation, the use of futures, forward contracts, and options, swaps and short positions.

The Global Opportunities Fund (Offshore) has an aggregate cost and fair value at December 31, 2011 of \$1,828,472 and \$1,887,812, respectively. The Global Opportunities Fund has an aggregate cost and fair value at December 31, 2010 of \$1,619,213 and \$1,811,045, respectively.

Goldman Sachs' Global Opportunities Fund (Offshore) is a relative value hedge fund that uses long/short positioning to capitalize on opportunities throughout the global fixed income and foreign exchange markets.

NOTE 6: INVESTMENTS (CONTINUED)

The Goldman Sachs Equity Long/Short Institutional, Ltd, was liquidated in 2011 and had an aggregate cost and fair value at December 31, 2010 of \$900,000 and \$1,216,360, respectively. The Goldman Sachs Global Fundamental Strategies had residual aggregate cost and fair value at December 31, 2011 of \$83,313 and \$78,777, respectively. The Goldman Sachs Global Fundamental Strategies aggregate cost and fair value at December 30, 2010 were \$712,169 and \$1,037,111, respectively.

The aggregate fair value of Global Equity Long/Short and Global Fundamental Strategies Funds is derived from audited financial statements of the respective Investment Funds. The assets of each Investment Fund will be valued by the Administrator of the Fund in accordance with the following: (i) the assets of the Investment Fund that are invested in Investment Manager Funds shall be valued in accordance with the terms of the respective governing agreement of each Investment Fund Manager as reported to the Investment Fund by the Investment Manager, (ii) all other assets of the Investment Fund of which market quotation are readily available will be assigned a value based on the quotations, and (iii) all other assets for which market quotations are not readily available shall be determined by a party selected by and independent of Goldman Sachs.

Goldman Sachs Global Equity Long/Short Institutional, Ltd. investment objective is to target attractive risk-adjusted returns with volatility lower than the broad equity markets, primarily through long and short investment opportunities in the global equity markets. To achieve this objective, this Fund will invest in Investment Fund Managers that employ strategies within the equity long/short hedge fund sector. Such strategies involve making long and short equity investments, generally based on intrinsic evaluations.

Goldman Sachs Global Fundamental Strategies use Investment Managers that employ event driven strategies that identify companies that are subject to periodic corporate events such as restructurings, mergers, takeovers, spin-offs and other special situations. The objective is to profit from the mispricings that occur due either to the market's misperceptions about such events or to the risks of such events either occurring or not occurring.

A shareholder has the right, provided its shares are fully paid, to redeem some or all of its shares, upon 45 days prior written notice, as of the time immediately prior to the opening of business on the first day of each calendar quarter occurring on or after the first anniversary of the purchase of such Shares by the Shareholder, subject to certain other restrictions in the Offering Memorandum. Shares will be redeemed at a per Share price based upon the net asset value of the Fund as of the close of business on the day immediately preceding the Redemption date.

Forester Offshore Fund is an exempt company incorporated under the laws of the Cayman Islands and is registered under the Cayman Islands Mutual Funds Law. The Fund's investment objective is to provide the investors with maximum appreciation of capital while incurring reasonable risk by investing primarily in a diversified group of investment funds. Over the medium to long term the Fund aims to achieve risk-adjusted returns that are superior to the broad market averages such as the S&P 500 index and the Morgan Stanley Capital International World Index.

The Fund generally invests with fund managers that employ a classic hedge fund approach by taking short positions as well as long positions typically in equity securities and may utilize leverage to magnify the effects of stock selection. The fund managers invest and trade largely in U.S. and equity securities, although these managers may also invest up to 20% of the Fund's assets (measured at cost) in strategies such as distressed debt, capital structure arbitrage and merger arbitrage.

NOTE 6: INVESTMENTS (CONTINUED)

The shares of the Fund are divided into two series', Series A and Series B, and except with respect to new issues, all shareholders participate in all investments of the Fund in the same manner. The only distinction among the series is the incentive fee rate and the redemption rights. The net asset value of the relevant series of shares at any date will be the total net assets within the relevant series, divided by the number of shares within the relevant series then outstanding. Net assets consist of the aggregate amount of cash, securities and other assets held by the Fund, less Fund liabilities. The total net assets at any date is determined on the accrual basis of accounting, utilizing U.S. generally accepted accounting principles or international accounting standards as a guideline. The Fund has retained an administrator to calculate the Fund's net asset value at the end of each month. In connection with the determination of the net asset value, the administrator may consult with or rely on advice from the underlying fund managers. Forester Offshore, Ltd has an aggregate cost and fair value at December 31, 2011 of \$1,951,668 and \$2,025,982, respectively. Forester Offshore, Ltd has an aggregate cost and fair value at December 31, 2010 of \$1,951,668 and \$2,076,440, respectively.

Private equity investments consist of investment in three funds purchased from Goldman Sachs, The Goldman Sachs Vintage Fund III Offshore Holdings, LP, The Goldman Sachs Private Equity Partners 2004 Offshore Holdings, LP, and The Goldman Sachs Equity Partners Asia Offshore Fund, L.P.

The Goldman Sachs Vintage Fund III Offshore Holdings, LP has an aggregate cost and fair value at December 31, 2011 of \$893,231 and \$907,708, respectively. The aggregate cost and fair value at December 31, 2010 of the Goldman Sachs Vantage Fund III Offshore Holdings, LP were \$1,430,804 and \$901,236, respectively. The Academy has a commitment to purchase a total of \$2,000,000 in the Vintage Fund III Offshore Holdings and the first purchase occurred in December 2004.

The Vintage III Funds investment objective is to seek to invest in the secondary market for private equity, primarily through the acquisition, directly or indirectly, of interests in pooled investment vehicles held by existing investors in those vehicles who are seeking liquidity prior to the termination of those vehicles (Secondary Investments), and through investment in investment vehicles that are formed to acquire portfolios of private equity investments held by existing investors in such securities (Synthetic Investments). The Vintage III Funds may also invest in other securities related to the secondary private equity markets (e.g., interests in private equity securitizations and derivatives). The Vintage III Funds will consider investments on a global basis and across all sectors of the private equity market, including, but not limited to, leveraged buyouts, growth capital financings, venture capital, distressed securities, mezzanine financing, and natural resources.

The Goldman Sachs Private Equity Partners 2004 Offshore Holdings, LP has an aggregate cost and fair value at December 31, 2011 of \$1,749,581 and \$1,720,645, respectively. The aggregate cost and fair value at December 31, 2010 of the Goldman Sachs Private Equity Partners 2004 Offshore Holdings, LP were \$1,741,156 and \$1,733,218, respectively. The Academy has a commitment to purchase a total of \$2,000,000 in the Private Equity Partners 2004 Offshore Holdings and the first purchase occurred during 2005.

NOTE 6: INVESTMENTS (CONTINUED)

The Private Equity Partners' investment objective is to realize long-term compounded returns in excess of those returns available through conventional investments in the public equity markets through investments in the private equity markets, through careful construction of a broad and varied private equity portfolio. The Fund may invest in pooled investment vehicles and privately negotiated transactions generally sourced on a co-investment basis both domestically and internationally, across all sectors of the private equity market, such as leveraged buyouts, growth capital financings, venture capital, industry-focused funds and distressed securities. The Fund will target a compounded annual rate of return on Contributed Capital of approximately 15% to 20%, although there is no assurance that the Fund will achieve its investment objectives.

The Goldman Sachs Equity Partners Asia Offshore Fund, L.P. has an aggregate cost and fair value at December 31, 2011 of \$898,138 and \$854,114, respectively. The aggregate cost and fair value at December 31, 2010 of the Goldman Sachs Equity Partners Asia Offshore Fund, L.P. were \$898,138 and \$669,479, respectively. The Academy has a commitment to purchase a total of \$2,000,000 in the Private Equity Partners Asia Offshore Fund and the first purchase occurred in 2007.

The investment objective of the Fund is to achieve long-term compounded returns that fall within the top quartile of those realized by investment managers focused on alternative investments in Asia. The Fund will seek to construct a well-diversified, Asia-focused private equity investment portfolio by making commitments to pooled investment vehicles managed by portfolio managers identified by the Fund.

The portfolio managers of these investments will employ one or more of the following investment strategies: growth capital, buyouts, distressed investing and other strategies (including, but not limited to, real estate private equity, hedge funds and venture capital).

The Fund will seek to construct a well-diversified portfolio of approximately 15 managers or partners focused in opportunities in Asia.

Harvest Masters Limited Partnership Fund LLC is a Delaware limited liability company. The Fund's investment objective is to seek absolute total return by investing in publicly traded MLPs with a particular focus on energy sector MLPs. The company intends to pay out substantially all of its distributable cash flow to holders of interest through quarterly distributions. Distributable cash flow is the amount received by the company as cash or paid-in-kind distributions from investments in MLPs or their affiliates, and interest payments received on debt securities, less current or anticipated operating expenses, taxes on company taxable income, and any leverage costs paid by the company. The company intends to pay distributions each fiscal quarter provided there is sufficient distributable cash flow for such fiscal quarter.

The net asset value per unit of interest at any given time shall be equal to the net asset value of the company divided by the number of interests then outstanding and issued to members and rounding such number to the nearest hundredth of a unit of interest. The Academy liquidated its holdings in Harvest Masters Limited Partnership Fund LLC in 2010. Under the subscription agreement, 90% was distributed by December 31, 2010 with the remaining 10% withheld until the annual audit was completed. The remaining 10% was received by the Academy in January 2011.

The Academy's real estate component consists of commitments of \$2,000,000 each to Madison International Real Estate Liquidity Fund III and Verdis Real Asset Fund, LP.

NOTE 6: INVESTMENTS (CONTINUED)

Madison International Real Estate Liquidity Fund III, (the Partnership) investment objective is to acquire a diversified portfolio of ownership interests such as limited partnership, limited liability company, joint venture and other liquid interests in existing entities owning quality commercial real estate assets at material discount to intrinsic value in secondary transactions with the goal of generating superior risk adjusted returns for the investors. The Partnership may also originate equity investment for existing ownership entities to facilitate the buyout of underlying partners or the monetization of imbedded equity positions, acquire general partnership positions or debt obligations with similar attributes. The Partnership expects to realize current income through operating dividends received from investments.

Madison will prepare quarterly (unaudited) and annual (audited) financial statements under the GAAP method of accounting whereby investments will be carried at fair market value. Because annual appraisals for each investment are frequently unavailable, not cost effective to obtain, and/or may not be reflective of the value of the Partnership's investments, fair value will be determined using a present value methodology derived from the future projected cash flows of each investment.

The Madison International Real Estate Liquidity Fund III has an aggregate cost and fair value at December 31, 2011 of \$1,811,795 and \$1,837,183, respectively. The Madison International Real Estate Liquidity Fund III has an aggregate cost and fair value at December 31, 2010 of \$1,524,930 and \$1,581,544, respectively. The Academy has a commitment to purchase a total of \$2,000,000 in the Fund and the first purchase occurred during 2007.

Verdis Real Asset Fund LP, a Delaware limited partnership a fund of funds of which Verdis Real Assets Capital, LLC is the General Partner, is designed to provide investors with exposure to private partnerships that invest directly in real estate and natural resources (oil and gas, power, and timber). Real Assets have historically provided attractive returns, portfolio diversification, and protection against unanticipated increases in inflation. The Fund will seek to invest with operationally-oriented, niche managers who have a history of successfully investing in specific market segments. Managers with operational, industry, or local market expertise can better capitalize on market inefficiencies due to their unique abilities, skills and access to deals. The Fund focuses on managers with a value orientation and will avoid managers who seek to profit from momentum investing in favor of managers who have demonstrated ability to perform throughout market cycles. Assets shall be valued on such date or day by the General Partner at fair market value in such a manner as it may be determined in good faith. In valuing property interests, the General Partner may use one or more of the following as determinants of value: valuations provided by portfolio managers, appraisals, lender valuations, agreement of sale, sales of comparable properties, discounted cash flow analysis, and direct capitalization of net operating income. Partners will be provided with audited annual financial statements, and unaudited quarterly reports.

Verdis Real Asset Fund LP has an aggregate cost and fair value at December 31, 2011 of \$1,157,767 and \$1,190,069, respectively. Verdis Real Asset Fund LP has an aggregate cost and fair value at December 31 2010 of \$1,071,533 and \$866,141, respectively. The Academy has a commitment to purchase a total of \$2,000,000 in the Fund and the first purchase occurred in 2007.

NOTE 6: INVESTMENTS (CONTINUED)

Colchester Global Bond Fund is a value-oriented global fixed income fund. The fund is organized as a partnership, structured legally as a Delaware statutory trust. The fund is managed by Colchester Global Investors Limited. With the exception of some forward currency contracts and accruals, all assets owned by the fund are publicly traded debt obligations, by U.S. and foreign governments, their agents and supranationals. Colchester Global Investors Limited does not normally invest in securities without a readily obtainable market value.

Northern Trust acts as the custodian and administrator for the fund. Northern Trust is responsible for independently valuing the fund's assets. The fund is valued on a monthly basis, as of the last business day of each month. Securities which are listed on any generally recognized securities exchange are valued at their closing price as is customarily ascertained by the respective exchange and disseminated by a quotation service or published by recognized newspapers. Forward contracts are valued using market exchange rates and adjusted to reflect the settlement period of the forward contract. Interest and withholding tax accruals are valued at fair market value in accordance with GAAP.

Colchester Global Investors Limited carries its own valuation on the fund as a means to review the Northern Trust valuation. Significant differences in valuation are resolved in accordance with an established procedure prior to releasing the final valuation. Differences can occur on occasion in markets where pricing volatility may exist close to a month end and local market broker sources may provide a consistently different valuation to that quoted more widely. Colchester Global Bond Fund aggregate cost and fair value at December 31, 2011 were \$2,563,263 and \$2,517,077, respectively. Colchester Global bond Fund had an aggregate cost and fair value at December 31, 2010 of \$2,060,193 and \$2,345,040, respectively.

Mason Capital, Ltd. (the Fund) is an exempted company incorporated under the laws of the Cayman Island. The investment has an aggregate cost and fair value at December 31, 2011 of \$1,037,255 and \$1,034,696, respectively. The Fund intends to invest substantially all of its capital through a "master feeder" structure (the Master Fund); a Cayman Island exempted limited partnership registered under the Exempted Limited Partnership Law (as revised) of the Cayman Islands, through which the Fund's investment program will be effectuated. It is anticipated that the Fund will be the only "feeder fund" investing through the Master Fund. Mason Capital LLC (the General Partner), a Delaware limited liability company, is the general partner of the Master Fund and is responsible for managing the Master Fund's affairs. The Master Fund's principal investment objective is to achieve attractive capital appreciation over time relatively independent of the returns generated by the overall equity and debt markets. The General Partner will attempt to realize this objective by employing a variety of investment strategies, including, without limitation, employing certain event-driven investment strategies such as merger arbitrage, distressed securities, and special situations. The General Partner may use a variety of financial instruments including, without limitations, securities and derivative securities. To the extent permissible under applicable laws and regulations, the Master Fund may also employ swaps and futures contracts and similar investments. Leverage may also be used if appropriate.

NOTE 6: INVESTMENTS (CONTINUED)

The Fund's net asset value (NAV) is the fair market value of its assets before giving any effect to payment of any subscription amounts or any redemptions and less all accrued Fund liabilities and expenses. Since the Fund intends to invest substantially all of its capital through the Master Fund any increase or decrease in the NAV of the Fund will be based primarily upon any increase or decrease in the net assets held in the Master Fund. SS&C Technologies Inc. (NAV Calculating Agent) will calculate the Fund's NAV and the NAV of each series of shares on a monthly basis. The NAV per share for any series of shares is the product of the percentage interest of each share in the applicable series and the NAV of that series. The NAV Calculating Agent will also calculate the net asset value of the Master Fund.

Owl Creek Overseas Fund, Ltd. (the Fund) is an exempted company under the laws of the Cayman Islands to operate as a privately offered investment fund. The investment has an aggregate cost and fair value at December 31, 2011 of \$826,421 and \$829,584, respectively. The Fund invests substantially all of its assets in Owl Creek Overseas Master Fund Ltd (the Master Fund) a Cayman Island exempted company. investment manager is Owl Creek Advisors, LLC, (the Manager) a limited liability company organized under the laws of the State of Delaware, and has responsibility for overseeing the investment strategy of the Master Fund, subject to the policies and control of the board of directors of the Master Fund. The investment objective of the Fund is to seek above average returns through an opportunistic event-driven value strategy with a focus on capital preservation. The Manager employs a bottom-up analysis, looking across both the debt and equity of a company's capital structure. The Master fund has the ability to invest in both long/short distressed debt and long/short value equity. The conclusions reached from this bottom-up approach are used to purchase or sell short a variety of financial instruments including, but not limited to, listed and unlisted common stocks, preferred stocks, convertible securities, public and private debt issues (including bank loans and trade claims) rights warrants, put and call swaps, forward contracts, when-issued securities and other derivatives, including futures contracts. The Master Fund invests in both U.S. and non U.S. issuers. The Master Fund may acquire or hold assets or securities which the Manager believes either lack a readily assessable market value or should be held until the resolution of a special event or circumstance. The issuer of such an investment may be a private company or, if it is a public company, the securities may have been purchased in a private placement. Such investments are not expected to comprise more than 7.5% of the Master Fund's net assets.

The net asset value (NAV) of the Fund equals its gross assets less its gross liabilities on any valuation date. The NAV of each class and series of shares is determined based upon the net asset value of the corresponding class and series of shares of the Master Fund held by the Fund, adjusted for assets held, or liabilities incurred, directly by the Fund. The NAV per share of a series will be determined by dividing the NAV of such series by the number of outstanding shares. Securities that are listed on a securities exchange will be valued at their last sales prices on the date of determination on the primary securities exchange on which such securities shall have traded on such date (or, in the event that the date of determination is not a date upon which a securities exchange

NOTE 6: INVESTMENTS (CONTINUED)

was open for trading, on the last prior date on which such security exchange was open not more than 10 days prior to the date of determination). Securities that are not listed on an exchange but are traded over-the-counter shall be valued at the average of the representative "bid" quotations and representative "asked" quotations, unless included in the NASDAQ National Market System, in which case they shall be valued based upon their last sales prices (if such prices are available). Options for which the last sales price does not fall between the last "bid" and "asked" prices for such options will be valued at the average of the last "bid" price and the last "asked" price for such options on such date. Securities that are not listed on an exchange, are not traded over-the-counter and for which external pricing sources are not readily available shall be valued by the Manager based on a relative value assessment process that incorporates current market conditions and capital structures of other securities where data is more readily available or other information that the Manager deems appropriate. These types of investments are carried on the books of the Master Fund at fair value until sold or otherwise liquidated or written down.

FLAG Real Estate Partners II L.P, is a Delaware limited partnership (the Partnership) controlled and managed by FLAG Real Estate Company II, LLC (General Partner). The investment has an aggregate cost and fair value at December 31, 2011 of \$226,486 and \$222,114, respectively. The primary objective is to provide a vehicle for qualified investors to invest in a portfolio of real estate funds based in, or investing in, one or more countries anywhere in the world, by making holdings and disposing of privately negotiated investments in the form of limited partner interests and other equity interests and of securities distributed by entities in which the Partnership has made investments. As a secondary objective, the Partnership may acquire secondary interests from third parties in investment vehicles similar to those described in the preceding sentence and may participate in co-investment opportunities that are offered in connection with the Partnership's portfolio fund investments or otherwise. In addition, the Partnership may otherwise engage in any lawful activity for which limited partnerships may be organized under the laws of the State of Delaware.

FLAG Energy & Resources Partners II L.P, is a Delaware limited partnership (the Partnership) controlled and managed by FLAG Energy & Resources Company II, LLC (General Partner). The investment has an aggregate cost and fair value at December 31, 2011 of \$230,087 and \$214,808, respectively. The primary objective is to provide a vehicle for qualified investors to invest in a portfolio of private energy, infrastructure and other resources funds based principally in North America, by making, holding and disposing of privately negotiated investments in the form of limited partner interests and other equity interests and of securities distributed by entities in which the Partnership has made investments. As a secondary objective, the Partnership may acquire secondary interests from third parties in investment vehicles similar to those described in the preceding sentence and may participate in co-investment opportunities that are offered in connection with the Partnership's portfolio fund investments or otherwise. In addition, the Partnership may otherwise engage in any lawful activity for which limited partnerships may be organized under the laws of the State of Delaware.

NOTE 6: INVESTMENTS (CONTINUED)

In both the FLAG Real Estate Partners II L.P. and the FLAG Energy & Resources Partners II L.P. the General Partner or such other person appointed or contracted by the General Partner on behalf of the Partnership, shall determine the value of any investment property, asset, liability, distribution, contribution or expense in good faith and in its sole discretion in any manner that is not inconsistent with industry custom based on available information it considers relevant. In determining the value of an investment, the General Partner is entitled to rely upon investment valuations provided by the fund manager, general partner or manager of such investment. Any value denominated other than in U.S. Dollars shall be converted into U.S. Dollars at the rate that the General Partner shall deem appropriate in the circumstances having regard to any premium or discount which may be relevant and to costs of exchange. The General Partner may adjust the value of any property or investment, if appropriate using currency, applicable rate of interest, maturity, marketability and other considerations the General Partner deems relevant.

The following tabulation summarizes the relationship between cost and fair values of investment assets as of December 31, 2011 and 2010.

2011

Realized Gains for the Year 5,280,457 Decrease in Value of Beneficial Interest in Perpetual Trusts (108,886)
Interest in Perpetual Trusts (108,886)
Investment Income Transferred (1,737,505)
Net (Loss) for the Year <u>\$ (4,024,717)</u>
2010
<u>2010</u>
Excess of Fair
<u>Cost</u> <u>Fair Value</u> <u>Value Over Cost</u>
Balance at End of Year \$ 41,942,413 \$ 50,620,457 \$ 8,678,044
Balance at Beginning of Year 45,862,912 48,969,229 <u>3,106,317</u>
Increase in Unrealized Gains for the Year 5,571,727
Realized Losses for the Year (349,923) Increase in Value of Beneficial
Interest in Perpetual Trusts 439,533
Investment Income Transferred (2,110,939)
Net Gain for the Year \$ 3,550,398

NOTE 7: FAIR VALUE MEASUREMENTS

FASB ASC 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets:
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value.

Mutual Funds: Valued at the net asset value of shares held by the Academy at year end.

Alternative Investments: Valued at the net asset value of shares held by the Academy at year end, valued at the closing price reported on the active market on which the individual securities are traded, and valued using a present value methodology derived from the future projected cash flows of each investment.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Academy believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 7: FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2011 and 2010:

2011 Cash Mutual Funds Fixed Income Securities Time Deposits Alternative Investments Beneficial Interest in Perpetual Trusts	Level 1 \$ 524,214 21,494,841 4,969,523 331,525 7,102,188 \$ 34,422,291	Level 2 \$ - - - - - -	Level 3 \$ - 2,517,077 - 16,967,207 - \$ 19,484,284	Total \$ 524,214 21,494,841 7,486,600 331,525 16,967,207 7,102,188 \$ 53,906,575
Total Assets at Fair Value 2010 Cash Mutual Funds Fixed Income Securities Time Deposits Alternative Investments Beneficial Interest in Perpetual Trusts	Level 1 \$ 341,397 27,684,718 4,747,656 42,759 - 7,211,074	Level 2 \$ - - - -	Level 3 \$ - - 2,345,040 - 15,800,284 -	Total \$ 341,397 27,684,718 7,092,696 42,759 15,800,284 7,211,074 \$ 58,172,928
Total Assets at Fair Value	\$ 40,027,6 <u>04</u>	\$ -	<u>\$ 18,145,324</u>	\$ 50,172,920

The following table sets forth a summary of changes in the fair value of the Academy's level 3 assets for the year ended December 31, 2011:

		<u> 2011</u>	<u>2010</u>
Balance, Beginning of year	\$	18,145,324	\$ 18,228,990
Total gain or losses (realized and unrealized)		695,972	1,412,936
Dividends and Interest Income		94,016	231,676
Purchases and Sales	_	548,972	(1,728,278)
Balance, End of year	\$	19,484,284	<u>\$ 18,145,324</u>

NOTE 8: ENDOWMENTS

The Academy's endowments consist of approximately 55 individual funds established to support a variety of purposes. The endowment includes both donor restricted funds and funds designated by the Board of Trustees to function as endowments. Net assets associated with the endowment are classified and reported based on the existence or absence of donor imposed restrictions. The Academy classifies all donor restricted endowment gifts as permanently restricted net assets. All gains and losses along with appropriations for expenditures on the gifts are recorded in the permanently restricted fund. The net accumulations on undesignated, donor restricted endowment gifts are classified as temporarily restricted net assets. All board designated endowment funds are classified as unrestricted net assets.

NOTE 8:

ENDOWMENTS (CONTINUED)

Endowment Net Assets consisted of the following as of December 31:

Board Designated Fund Donor Restricted Endowments Board Designated Fund	Unrestricte \$ 2,761,66 \$ 2,761,66 Unrestricte \$ 5,321,2	68 68 20	Tempor Restric \$ 3,857, \$3,857, 10 Tempor Restric	- 439 439 earily	Res: \$ 39,1 \$39,1 Perm Res: \$	anently tricted - 75,027 75,027 anently tricted	\$ 4 \$ 4	Total 2,761,668 3,032,466 5,794,134 Total 5,321,268

NOTE 8: ENDOWMENTS (CONTINUED)

The Academy's endowment portfolio is invested with the objective of providing long term capital growth and to meet the annual budget needs. The endowment assets are invested in a diversified manner with the mix of asset classes set so as not to be highly correlated. The primary investment objective is to achieve a sufficient long-term return to preserve the purchasing power of the assets, plus an amount to support future activities. A major part of growth should result from the addition of new gifts. The asset allocation of the portfolio is designed to produce at least an 8% return annually.

Due to recent economic conditions, the Academy increased its spending percentage to 7% (from 5.5%) of a four year rolling average for 2011 and a three year rolling average for 2010. The temporary increase is intended to offset decreased contributions from the Commonwealth of Pennsylvania, corporate and individual donors.

Donor restricted gifts that provide special spending instructions are not included in the three year rolling average calculation. Spending on these gifts follow specific instructions imposed by the donor.

NOTE 9:

PROPERTY AND EQUIPMENT

Property and equipment consisted of the following as of December 31:

	<u>2011</u>	<u>2010</u>	<u>Life</u>
Buildings Building Improvements	\$ 31,259,197 2,259,433	\$ 30,762,451 1,979,405	50 Years 20 Years
Equipment Vehicles	10,588,494 38,528	10,244,872 38,528	3 - 10 Years
Work in Progress	44,145,652	222,227 43,247,483	5 Years
Less: Accumulated Depreciation and Amortization	29,452,048 \$ 14,693,604	28,143,624 \$ 15,103,859	

Depreciation and amortization expenses for the years ended December 31, 2011 and 2010 were \$1,308,424 and \$1,326,917.

Depreciation and amortization expenses are recorded in the statement of activities for \$1,096,050 for 2011 and \$1,114,432 for 2010, as these assets were purchased with non-operating revenues. In addition, \$212,374 for 2011 and \$212,485 for 2010 in depreciation and amortization expenses were included as a part of operating expenses.

NOTE 10: COLLECTIONS

The collections, which were acquired through purchases and contributions since the Academy's inception, are not recognized as assets on the statement of financial position. Purchases of collection items are recorded as decreases in unrestricted net assets in the year in which the items are acquired or as temporarily or permanently restricted net assets if the assets used to purchase the items are restricted by donors. Contributed collection items are not reflected on the financial statements. Proceeds from deaccessions or insurance recoveries are reflected as increases in the appropriate net asset classes.

The Academy's collections are made up of library holdings, scientific specimens, minerals, gems, exhibits, and art objects that are held for educational research, scientific, and curatorial purposes. Each of the items is cataloged, preserved, and cared for, and activities verifying their existence and assessing their condition are performed continuously.

NOTE 11: PENSION PLAN

The Board of Trustees, on September 15, 2009, approved freezing the Academy's Defined Benefit Pension Plan, along with the TIAA-CREF Defined Contribution Plan, effective December 31, 2009. On December 8, 2009 the Board of Trustees unanimously approved a new Defined Contribution 403(b) Retirement Plan for all eligible Academy employees, effective January 1, 2010. The new plan replaces both the defined benefit and TIAA-CREF plans starting January 1, 2010.

The Academy up through December 31, 2009, offered participation in either a defined benefit pension plan or a defined contribution pension plan. These plans cover all full-time employees with a minimum of one year of service. The defined contribution plan is managed and administered by the Teachers Insurance and Annuity Association College Retirement Equities Fund (TIAA-CREF). A full-time employee whose immediately preceding employer offered this plan may opt to continue within this plan as of December 31, 2009 the plan was frozen to new participants.

All other full-time employees with a minimum of one year of service are covered by the defined benefit pension plan. Annual pension benefits are based upon a percentage of preretirement compensation. For the defined benefit pension plan, this percentage increases with years of service and the annual payment is adjusted based upon social security benefits. The Academy's funding policy is to contribute annually an amount as required by the Employee Retirement Income Security Act of 1974. For the defined contribution pension plan, contributions are based on a flat eight (8%) percent of annual compensation.

The new defined contribution plan effective January 1, 2010 does not provide for a predefined employer contribution. The Board of Directors may declare an employer contribution at their discretion. For the years ended December 31, 2011 and 2010, there were no employer contributions to the defined contribution plan. The Academy did make required contributions to the frozen defined benefit plan in the amounts of \$462,444 for 2011 and \$175,670 for 2010.

NOTE 11: PENSION PLAN (CONTINUED)

During 2010 the Academy's actuaries, Towers Perrin merged with Watson Wyatt creating Towers Watson. As a result of the merger a new discount rate modeling tool (Bond:Link) was made available to the former Towers Perrin clients. Up until 2010, the Academy had used the Towers Perrin Rate: Link cash flow model which utilized the average yield between 10th-90th percentiles of bonds rounded to the nearest 10 basis points to determine the discount rate assumption to be used in the pension valuation. The Bond:Link model develops a discount rate by selecting a portfolio of high quality corporate bonds appropriate to provide for the projected benefit payments of the plan. A single rate is determined that equates the market value of the bonds purchased to the discounted value of the plans benefit payments, rounded to the nearest 5 basis points. The Academy selected to use the Bond:Link tool for the 2010 pension valuation and for future valuations.

If the Academy had chosen to continue to use Rate:Link in 2010, the discount rate would have been 5.30%. The Plan's Projected Benefit Obligation would have been \$13,506,372 as of December 31, 2010 and the amount recognized in accumulated other comprehensive income would have been \$4,532,766.

The assumptions for the pension liabilities, the Accumulated Benefit Obligation, change in Projected Benefit Obligation, and change in Plan Assets are noted as follows:

	2011	<u>2010</u>
Weighted-average assumptions as of December 3 Discount rate Expected return on plan assets Rate of compensation increase	5.00% 7.00% N/A	5.75% 8.00% N/A

Net periodic benefit cost	\$	228,044	\$ 285,951
FAS 88 charges:			
Curtailment charge(credit) Settlement charge(credit)		- -	
Total net periodic benefit cost	<u>\$</u>	228,044	\$ 285,951

The measurement date used by the Academy is December 31. At the end of 2011 and 2010, the pension plan had a projected benefit obligation in excess of plan assets and an accumulated benefit obligation in excess of plan assets. The projected benefit obligation, accumulated benefit obligation, and fair value of plan assets for the pension plan are as follows:

	Projected Benefit Obligation Exceeds Fair Value of Plan Assets				
-		2011		2010	
Projected benefit obligation	\$	14,396,798	\$	12,803,721	
Fair value of plan assets	\$	8,215,332	\$	8,368,927	
		Accumulated l	Benefit Obligation	on	
		Ex	ceeds		
		Fair Value	of Plan Assets		
•		2011		2010	
Accumulated benefit obligation	\$	14,396,798	\$	12,803,721	
Fair value of plan assets	\$	8,215,332	\$	8,368,927	

NOTE 11: PENSION PLAN (CONTINUED)

Information about the expected cash flows for the pension plan is as follows:

Expected benefit payments	
2012	\$ 634,682
2013	654,297
2014	695,375
2015	724,851
2016	771,832
2017-2021	4,653,647

Plan Assets:

The Academy's pension plan weighted-average asset allocations at December 31, 2011 and 2010, by asset category are as follows:

	Plan Assets at December 31		
	2011	2010	
Asset Category			
Equity Securities	31.5%	40.3%	
Fixed Income Securities	28.6%	24.8%	
Hedge Funds and Alternative Investments	33.8%	32.2%	
Cash	6.1%	2.7%	
Total	100.0%	100.0%	

The Academy's investment policy and strategy is to shift investments to the target allocation to control the volatility of investment returns for the portfolio. As the investment horizon is expected to be long term, the portfolio needs to provide long term capital growth while also being protected from incurring major losses due to the poor performance of one sector of the market and must be invested to reduce the overall investment risk and volatility of investment returns.

The Academy's investment strategy is based on identifying the appropriate mix of assets that achieve an optimal balance between risk and investment return potential. The strategy focuses on four fundamental decision points:

Overall portfolio risk
Diversification across equity markets
Diversification across fixed income markets
Allocation to hedge funds
Allocation to real estate

Accordingly, the composition of the Academy's plan assets is characterized as a 40%, 33%, 22%, and 5% allocation between equity, alternative investments, fixed income investments and cash. The strategy currently utilizes indexed equity funds and fixed income funds, and a number of alternative investment vehicles. The alternative investments are allocated among various classes, including but not limited to: equities, hedge funds, fixed income, natural resources, and real estate. The strategy allows the

NOTE 11: PENSION PLAN (CONTINUED)

Academy to invest in a diversified manner with a mix of assets that are set not to be highly correlated. This diversity is designed to reduce the potential of a single security or asset class from having a disproportionate or significant impact on the portfolio.

The expected rate of return on assets was based on the current interest rate environment and historical market premiums of equity and other asset classes relative to fixed income rates.

Effective December 31, 2007, The Academy changed its method of accounting for its defined benefit pension to conform to FASB 958-715. Adoption of this accounting pronouncement required the Academy to establish an asset or liability for the difference in the actuarially determine Pension Plan Liability and the Fair Market Value of Pension Plan Assets. The effect to the Academy's financial statements after application of FASB 958-715 as of December 31, 2011 was an increase in the pension liability of \$1,746,672 and a decrease in unrestricted net assets of \$2,209,116. The effect to the Academy's financial statements as of December 31, 2010 was a decrease in the pension liability of \$158,782 and a decrease in unrestricted net assets of \$16,898. The unfunded pension liability as of December 31, 2011 was \$6,181,466 and that was an increase from the prior year amount of unfunded pension liability of \$4,434,794.

Cumulative effect of SFAS No. 158 reflected in Unrestricted Net Assets for the following years:

 2007
 \$ (953,524)

 2008
 (3,396,711)

 2009
 966,191

 2010
 (16,898)

 2011
 (2,209,116)

Total \$(5,610,058)

NOTE 12: CONTRIBUTED SERVICES

During 2011 and 2010, the Academy received in-kind advertising services valued at \$1,056 and \$32,200, respectively, from various media outlets. This amount is included in Unrestricted Contributions and in Development and External Affairs expenditures. Additionally, a substantial number of unpaid volunteers have made significant contributions of their time to develop the Academy's programs. The value of the contributed time is not reflected in these statements as the services rendered are clerical in nature and do not meet the recognition criteria of FASB ASC 958-205.

NOTE 13: DISCRETIONARY LINE OF CREDIT

The Academy's \$4,000,000 line of credit agreement with Citizen's Bank expired in July 2010. The Academy replaced the facility with a new 364-day line of credit with Citizen's Bank. The new unsecured line of credit agreement allows the Academy to borrow up to \$2,500,000 with the bank. Under the terms of the discretionary line of credit agreement, the full principal amount is available at an annual interest rate equal to the sum of the 30 day LIBOR rate plus 3.85%. The effective rates as of December 31, 2011 and 2010 were 4.41% and 4.11%. There were no borrowings as of December 31, 2011 compared to \$0 as of December 31, 2010. Interest paid on the line of credit was \$41,726 and \$54,591 in 2011 and 2010, respectively. The prior \$4,000,000 line of credit accrued interest at an annual rate equal to the sum of the 30 day LIBOR rate plus 1.00%.

NOTE 14: LONG-TERM DEBT

Due to the unprecedented investment market upheaval in 2008, and the negative impact it had on investment assets, the Academy's unrestricted net assets were not equal to at least 90% of the unrestricted net assets as measured by the previous two fiscal years, as of December 31, 2008, as required under the covenant of the 1998 twenty-year, \$4,250,000 tax exempt bond financing agreement. Due to the covenant default, JP Morgan called the bond effective July 1, 2009.

The bond was retired utilizing a combination of accumulated resources specifically for this purpose along with \$2,050,000 from a new five-year unsecured term loan from Citizen's Bank. Interest on the outstanding principal of the term loan accrues at a rate per annum equal to the sum of the 30 day LIBOR rate plus 4.25%. The effective rate as of December 31, 2011 and 2010 was 4.8057 and 4.4829%, respectively.

Financial covenants on the five-year loan include a requirement that the Academy maintain unrestricted and Board designated assets of 1.25 times the outstanding 5 year-term loan and the line of credit balances tested on every December 31st and June 30th. The covenants also require providing audited financial statements within 150 days after the end of each fiscal year.

The principal repayment schedule for the five-year term loan is as follows:

2012 \$ 200,000 2013 200,000 2014 700,000 \$ 1,100,000

The five-year term loan allows for early retirement without penalty, if advance payments are made on the LIBOR reset date. As of April 1, 2011 and 2010, the Academy had made the 2010 and 2011 payments, reducing the outstanding principal balance to \$1,100,000. The next required principal payment is not due until July 1, 2012.

NOTE 15: NET ASSETS RELEASED FROM RESTRICTIONS

Net assets released from donor restrictions by incurring expenses satisfying the restricted purposes or by occurrence of other events specified by donors are as follows for the years ending December 31:

	<u>2011</u>	<u>2010</u>
Operating		
Research Programs	\$ 3,025,383	\$ 2,375,299
Public Programs	718,708	595,940
Other Programs	493,605	388,318
ū	\$ 4,237,696	\$ 3,359,557

NOTE 16: RESTRICTION ON ASSETS

The restrictions on net assets at December 31, 2011 and 2010, respectively, relate to funds raised prior to December 31, 2011 and 2010, to be used for research and education programs, and to support non-operating activities such as the expansion of research and museum facilities.

		December 31,		
		<u>2011</u>	<u>2010</u>	
Unrestricted net assets are as follows: Capital Expenditures Board-Designated Funds Pension Reserve	\$ \$	14,693,604 270,541 (6,181,466) 8,782,679	\$15,103,859 2,543,084 (4,005,621) \$13,641,322	
Temporarily restricted net assets are available for the following purposes:				
Support of Designated Programs	\$	6,894,369	\$ 7,660,658	
Life Income Gifts		253,107	189,746	
	\$	7,147,476	\$ 7,850,404	
Permanently restricted net assets are as follows:				
Endowment	\$	46,278,214	<u>\$47,573,084</u>	

NOTE 17: ACCOUNTING FOR UNCERTAINTY IN INCOME TAXES

The Financial Accounting Standard's Board (FASB) issued ASC Topic 740-10, Accounting for Uncertainty in Income Taxes. The Interpretation established for all financial enterprises, a requirement for financial statement recognition of any benefits that the enterprise may expect to receive as a result of a position taken with regard to income taxes.

The Academy is a nonprofit organization that has been granted tax exempt status under Section 501(c)3 of the Internal Revenue Code. The Academy has from time to time, filed form 990T to report unrelated business income from investments held in the endowment fund, when unrelated business income has been reported by the investment manager on Schedule K-1.

The Academy also annually reviews the items available for sale in the Academy's gift shop. Although the purpose of each sale is to further the museums exempt purpose, thus excluding it from unrelated income, the Academy has taken a conservative approach, and identifies certain items (i.e. foodstuffs and water) as unrelated business income items and reports the income and associated expense on these items on form 990T.

The Academy estimates there will be no taxes due on unrelated business income for 2011 based on 2010 990T filing. The Academy elected to carry forward into 2011 the refund from 2010 990T filing. The amount of unrelated business income generated by the Academy does not threaten the Academy's 501(c) 3 status.

The Academy's management has not taken an uncertain tax position with regard to income tax that would, in management's opinion, "more likely than not" produce a benefit that would be sustained upon IRS examination, and as such, does not reflect a benefit in the financial statements for an uncertain tax position.

NOTE 18: CURRENT MARKET ISSUES

The Academy is highly dependent on contributions and grants. In light of current economic conditions in the United States, unexpected reductions in funding may affect the Academy's operations.

NOTE 19: SEPTEMBER 30, 2011 FINANCIAL STATEMENTS PER AFFILIATION AGREEMENT WITH DREXEL UNIVERSITY

On September 30th, 2011 The Academy of Natural Sciences of Philadelphia executed an Affiliation Agreement with Drexel University, establishing the Academy as a non-profit subsidiary of Drexel. No monetary consideration was exchanged in this transaction. Both the Academy and Drexel retain their separate corporate identities and missions. The Academy remains a separate 501(c)(3) non-profit organization with its own Board of Trustees and retains its corporate name. Drexel becomes the sole voting member of the Academy.

NOTE 19:

SEPTEMBER 30, 2011 FINANCIAL STATEMENTS PER AFFILIATION AGREEMENT WITH DREXEL UNIVERSITY (CONTINUED)

Drexel University assumed responsibility for the fiscal condition of the Academy and the management of its financial resources. The Academy's endowment funds will continue to be used only for the benefit of the Academy and to support its operations, programs and activities and all restrictions on such funds will continue to be honored. The Academy's endowment funds will be invested and managed by the Investment Committee of the Drexel Board of Trustees in a manner that assures the funds can be separately identified and accounted for. The Academy will be converting from a calendar year organization to a July 1 fiscal year organization, beginning July 1, 2012, matching Drexel's fiscal year. The Academy's collections and scientific resources will be preserved and managed in a manner to enhance scientific and reputational value – they are not to be liquidated or sold for budgetary reasons. Care and preservation of the collections and scientific resources will be overseen by the Academy's Board.

The Chair of the Academy's Board of Trustees (who will be an ex-officio member of the Drexel Board and an ex-officio member of the Drexel Executive Committee) shall be a designated a member of the Drexel Investment Committee. If he/she does not want to sit on this Committee, they may select another Academy board member to take their place. Drexel University will designate 5 members of the Academy's Board with full voting rights, 3 of whom will be the Drexel President, ex-officio; Drexel Chief Financial Officer, exofficio; and the Drexel Provost, ex-officio. The Academy's board is comprised of 26 members (32 maximum). 21 of the members will be the existing members of the Academy's Board prior to the date of the affiliation agreement. The Drexel President shall be on the Academy's Executive Committee. Academy board members (other than Drexel designees) shall be elected for 3 year terms that are staggered. The Drexel Board will have approval and ratification of the Academy's board members.

The current Academy President will remain in place. If the post is open the Academy's President shall be appointed by the Drexel President, subject to the approval of the Academy's Board, and shall report directly to the Drexel President. The Drexel President will have the right to remove the Academy's President, subject to prior notice to and consultation with the Academy's Board.

Because of the financial responsibility assumed by Drexel with respect to the Academy's operations, Drexel will retain the following powers:

- Approval of any amendments or repeals to the Academy's Articles of Incorporation or bylaws;
- Appointment or removal of Academy board members;
- Approval of any mergers, acquisitions, sales or disposals of assets;
- Creation or acquisition of any subsidiary of Academy;
- Dissolution or liquidation of Academy and its assets.

NOTE 19:

SEPTEMBER 30, 2011 FINANCIAL STATEMENTS PER AFFILIATION AGREEMENT WITH DREXEL UNIVERSITY (CONTINUED)

The Academy's senior officers and key employees will remain in their positions "at-will." Thereafter, such senior officers and key employees will be appointed and removed by the Academy's President with the approval of the Drexel President. The Academy's Chief Financial Officer will dually report to the Academy President and the Drexel Chief Financial Officer. Other senior officers shall report to the Academy's President and will also keep their Drexel counterparts informed.

Drexel shall assume responsibility for the liabilities of the Academy and shall cause sufficient funding to be made available to meet any operating deficits, liquidity needs, and budgeted capital improvements of the Academy that may be incurred after September 30, 2011 (Effective Date). In the event that Academy shall have any operating surpluses after the Effective Date, Drexel will have the responsibility and power to propose and include in any annual budget or capital plan of the Academy an allocation of such surplus for use within the Academy or for reimbursement of Drexel for any amounts previously advanced or paid by Drexel on behalf of the Academy or for use within the Drexel system composed of Drexel and other Drexel affiliated entities; provided however that such allocation shall be consistent with the overall responsibility that Drexel has for the Academy.

Because of the financial responsibility being assumed by Drexel with respect to the Academy's operations, Drexel will retain the following powers:

- Approval of changes to mission of the Academy or to ownership, preservation, and maintenance of its scientific resources;
- Approval of the operating and capital budgets of the Academy;
- Approval of unbudgeted transfers of assets;
- Approval of any unbudgeted single or cumulative incurrence of debt in any 12 month period by the Academy in an amount in excess of 1% of the operational budget.
- Approval of any material activities by the Academy to apply for, modify, or abandon any grant applications or awards.
- Approval of any new affiliations of the Academy.

To ensure the operations of the Academy and Drexel University are aligned to successfully integrate and combine the two institutions in an efficient and timely manner, and to achieve the respective missions, an Integration Council will be established. The Integration Council will be comprised of the Drexel President, the Academy's President, the Academy's and Drexel's Chief Financial Officers, the Drexel Provost, and others from Drexel and the Academy as the Drexel President sees fit. The Drexel President (or his/her designee) will serve as the Integration Council's chair. The Drexel President may disband the Integration Council at such time as the Drexel President determines that the integration of Academy and Drexel has been successfully implemented. In the public domain, the Academy will be referred to as "The Academy of Natural Sciences of Drexel University" and marketing and branding initiatives will reflect the institutions mutual desire to promote learning and public understanding of, and engagement with, the natural and environmental sciences, and to engage in research, scholarly activities and community initiatives.

NOTE 19:

SEPTEMBER 30, 2011 FINANCIAL STATEMENTS PER AFFILIATION AGREEMENT WITH DREXEL UNIVERSITY (CONTINUED)

The affiliation provides the Academy with additional resources for its scientists and its public museum, including access to laboratories, opportunities for teaching, innovative technology for exhibition, including media arts, design and simulation. Drexel University's faculty and students will have access to the Academy's world-renowned scientific collects and library for their research activities. Scientists from the Academy will join with Drexel faculty and researchers in biodiversity, ecosystem processes, environmental engineering, and conservation biology to create an academic unit uniquely positioned to contribute research and teaching in the natural and environmental sciences.

The financial statements presented in this footnote reflect the calendar year activities of the Academy as of September 30, 2011 and are intended to provide the necessary financial roll forward information needed by the University to prepare consolidated financial statements.

NOTE 20:

RELATED PARTY TRANSACTIONS

Per an affiliation agreement dated September 2011, the Academy of Natural Sciences is a subsidiary of Drexel University. During the 2011 year, Drexel provided \$350,000 of funding to the Academy for their bicentennial celebration. This revenue was deferred as of December 31, 2011 and is classified in other liabilities on the balance sheet.

NOTE 21:

SUBSEQUENT EVENTS

On February 1, 2012 the Academy entered into a \$900,000 five-year unsecured term loan agreement with Drexel University. Interest on the outstanding principal of the term loan accrues at a rate per annum of 0.75%. The five-year term loan allows for prepayment in full or in part, without premium or penalty at any time, provided the Academy may not re-borrow any such amounts prepaid.

The principal repayment schedule for the Drexel five-year term loan is as follows:

2012	\$ -
2013	177,320
2014	178,650
2015	179,990
2016	181,340
2017	 182,700
Total	\$ 900,000

The Drexel five-year term loan allows for early retirement of the \$1,100,000 term loan with Citizen's Bank. The Academy combined the \$900,000 of loan proceeds from Drexel, with \$200,000 of Board designated reserves to retire the \$1,100,000 of Citizen's Bank debt on February 6, 2012.

On May 4, 2012 Drexel University, after consulting with their auditors, Deloitte & Touche LLP, and the Academy's auditors, Zelenkofske Axelrod LLC, selected to utilize the push down accounting option under purchase accounting. Drexel has directed the Academy to record its assets at fair value as of September 30, 2011. There are two advantages to electing to push-down accounting: (i), The financial position and results of operations of the Academy will be reported on the same economic basis in both the consolidated statements and its own separate entity statements; and,(ii) The process of consolidation will be greatly simplified for Drexel.

The existing Academy's investments have been adjusted to the September 30, 2011 basis for calculating gains and losses in the 2011 financial statements.

Drexel has hired a building valuation firm to determine the fair value of the Academy's property located at 1900 Benjamin Franklin Parkway in Philadelphia Pennsylvania. The valuation will not be finalized before the release of the 2011 financial statements. The building will be adjusted to fair value in the Academy's June 30, 2012 stub year audited financial statements.

Subsequent events for the Academy of Natural Sciences of Drexel University have been evaluated through the report issue date, June 4, 2012. The financial statements for the Academy as of December 31, 2011 were available to be issued as of June 4, 2012

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees The Academy of Natural Sciences of Philadelphia Philadelphia, Pennsylvania

We have audited the financial statements of The Academy of Natural Sciences of Philadelphia as of and for the year ended December 31, 2011 and have issued our report thereon dated June 4, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered The Academy of Natural Sciences of Philadelphia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion of the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the The Academy of Natural Sciences of Philadelphia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the The Academy of Natural Sciences of Philadelphia's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

<u>Zelenkofske Axelrod LLC</u>

Page 46

To the Board of Trustees
The Academy of Natural Sciences of Philadelphia

Compliance and Other Matters

As part of obtaining reasonable assurance about whether The Academy of Natural Sciences of Philadelphia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the audit committee, the Board of Trustees, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Board of Trustees The Academy of Natural Sciences of Philadelphia Philadelphia, Pennsylvania

Compliance

We have audited the compliance of The Academy of Natural Sciences of Philadelphia with the types of compliance requirements described in the *U.S. Office of Management and Budget ("OMB") Circular A-133 Compliance Supplement* that are have a direct and material effect on its major federal program for the year ended December 31, 2011. The Academy of Natural Sciences of Philadelphia's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of The Academy of Natural Sciences of Philadelphia's management. Our responsibility is to express an opinion on The Academy of Natural Sciences of Philadelphia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, "*Audits of States, Local Governments, and Non-Profit Organizations.*" Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about The Academy of Natural Sciences of Philadelphia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on The Academy of Natural Sciences of Philadelphia's compliance with those requirements.

In our opinion, The Academy of Natural Sciences of Philadelphia complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended December 31, 2011.

Internal Control Over Compliance

The management of The Academy of Natural Sciences of Philadelphia is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered The Academy of Natural Sciences of Philadelphia's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of The Academy of Natural Sciences of Philadelphia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the audit committee, the Board of Trustees, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
