Kids Club March Activity Sheet

Activity #1: Find something in *Butterflies!* that's not a butterfly. What is it?

Activity #2: Find out what countries our butterflies come from.

Talk to the friendly staff at the Visitor Services Desks and get your March stamp. Do you have **eight** stamps yet? If you do, it's time to collect your prize!

Find these words here and in The Academy at 200!

bicentennial brain clam shell collection condor coral crocodile detective elk jaw March python skull space rock specimens two hundred up close vampire fish

Test your knowledge of the Academy with these trivia questions! (Hint: The answers are all over the museum!)

- 1. In what city was *Hadrosaurus foulkii* discovered in 1858?
- 2. How many dioramas are in the museum? How many dioramas display animals that are extinct?
- 3. The butterflies that are here this week probably won't be the same as what those that were here last week. Why?
- 4. How many feet long is the *Tyrannosaurus rex* cast in Dinosaur Hall?
- 5. True or False: Cowries are shell collectors' favorites.
- 6. Are the plants in the dioramas real?
- 7. Fill in the blank: The flow of _____ from one organism to another is called a food

3. Butterflies generally live for one to two weeks.
4. 42 feet long
5. True
6. No, but some are made from molds of real leaves and plants.
7. Energy

1. Haddonfield, New Jersey

Do you have a question about the natural world?

Email <u>kidspage@ansp.org</u> and your question might be answered in the next issue of *Academy Frontiers*, our member magazine!
