

Your Membership Makes a Difference

When you join the Academy, your membership dues help us continue to explore our natural world, conduct critical research in biodiversity and environmental science and engage with our community on the most important environmental issues of our time.

As a member, you help:

- Ensure the conservation of the Academy's unparalleled collections — a **library of life** with more than 19 million important specimens.
- Connect local students and community members to nature with **innovative education programs**, events and exhibits.
- Sustain vital **scientific research** on climate change, evolution, water resources, biodiversity and extinction.
