

Ned Gilmore

**Collection Manager for Vertebrate Paleontology,
Mammalogy and Herpetology**

Academy of Natural Sciences of Drexel University

Website: <http://www.ansp.org/research/systematics-evolution/people/vertebrate-biology/>

Ned Gilmore has worked for many years on the databases, curation and type studies for the vertebrate paleontology, mammalogy and herpetology collections.

He is especially knowledgeable about the Late Cretaceous and Early Tertiary fossils of eastern North America; the reptiles and amphibians of eastern North America, and the mammals of Pennsylvania, New Jersey and Delaware.

Gilmore also has logged many years delivering outreach programs on these and related fields to the general public.
