

Donating Securities to the Academy

Thank you for including the Academy of Natural Sciences in your philanthropy. Gifts of appreciated stock transferred directly to the Academy may have extra tax savings. When securities have increased in value, you should normally give them directly rather than sell them and give from the proceeds. When owned for more than a year, securities to fund a gift can be considered a charitable deduction at full fair-market value, not just their original cost.

Giving in this way also enables you to bypass capital gains tax that would otherwise be due if the donated securities were sold. If you own securities that have decreased in value since you have owned them, consider selling those securities and making a charitable gift of the proceeds. In addition to a deduction for the cash contribution, you may claim a loss that is deductible for other taxable income.

See reverse side instructions for your broker to electronically transfer gifts of stock to the Academy of Natural Sciences. Please notify us by telephone or email prior to any stock transfer so that we are aware of the gift and can acknowledge it promptly.

If you or your broker has additional questions, please get in touch with the Academy's Executive Director of Development, **Caitlin K. O'Brien** at **215-405-5079** or **obrien@ansp.org**.

Thank you again for advancing the Academy's programs!
